Jerry,
Remember 2nd period,
9th grade, Mr. Shellenberger's
Class. Chelle and everyone
else. Then there was lunch.
Then came 10th grade Spanish 2,
11th grade Sociology I, and Soc. II
in 12th. Just think we even
knew each other when we were
in 2nd grade. Remember "First
Holy Communion". We might
not remember each other from
2nd grade but I will remember
you now. Have a terrific time
and enjoy ~~X~~ life.
Love,
Chris

It's really became close friends with you this year and I'm glad. We've known each other for a good many years and I hope for many more to come. Remember all those wacky and Zany times in the lobby at lunch time. Don't forget, when you can't say something just spit it on the wall so you can read it. Good Luck in that special future that I hope you have. Take Care of yourself and God Bless

STUDENT LIFE

Terry. Yes I want to live with my lips! (10yrs from now you probably won't remember why I wrote that) Anyway. Always remember the torture school has put us through. Studies this year and all the help you gave me + Jody on those WC test. Take care and be a good girl in the future!

Pressure. We all knew what pressure was. Pressure was starting the essay question with three and a half minutes left in the period. The question was always something profound and meaningless, like: Compare/contrast — a duck and a sweatsock. What could we say?

Then, when we finally did figure out what to say, the paper would rip and the pencil point would break and the sweat would blind us, as the pain in our dented fingers became unbearable, but it didn't matter, because the period was over and we were probably writing the wrong thing anyway.

Pain was our constant companion. Pain was learning we had five different bell schedules for the next 180 days, and that the "A" we thought we had in history class was really a "D."

Pain was what health class caused and aspirin cured. It was telling Dad the car had a new dent in it and breathing butyric acid in chemistry class.

We had sprained ankles, sprained minds, and sprained hearts, but according to health room propaganda, a spoonful of Pepto-Bismol could cure them all.

On Friday night, October 14, the four classes stormed the streets of Red Lion following their floats. The Seniors captured first place in both the spirit and float competitions.

Saturday afternoon, Andrea Gurnavage was crowned 1983 Homecoming Queen. The mighty Lions "Mowed Over Dover" by a score of 26-0. Tony Wynegar scored on a touchdown pass from Andy Hower, along with Byron Trout for 2 of the 4 touchdowns. Steve Hynoski and Todd Holtzapple both had touchdowns on running plays. Nick Contino converted 2 of the 4 extra points. There was a great defensive performance which contributed to an all around team effort.

SENIORS

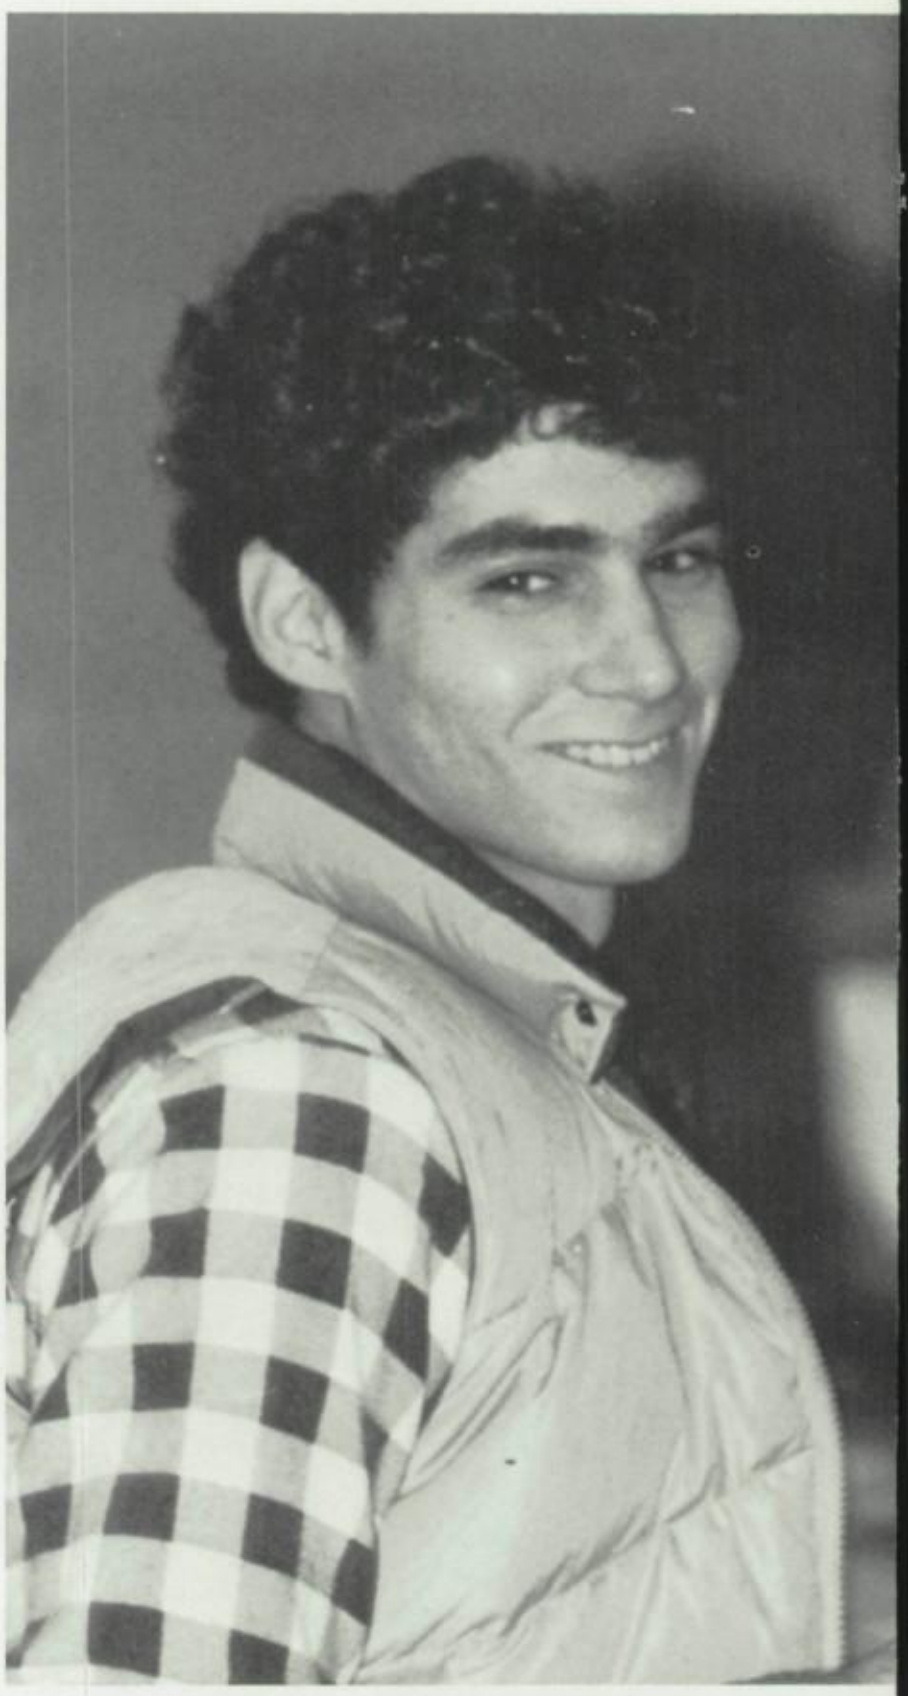
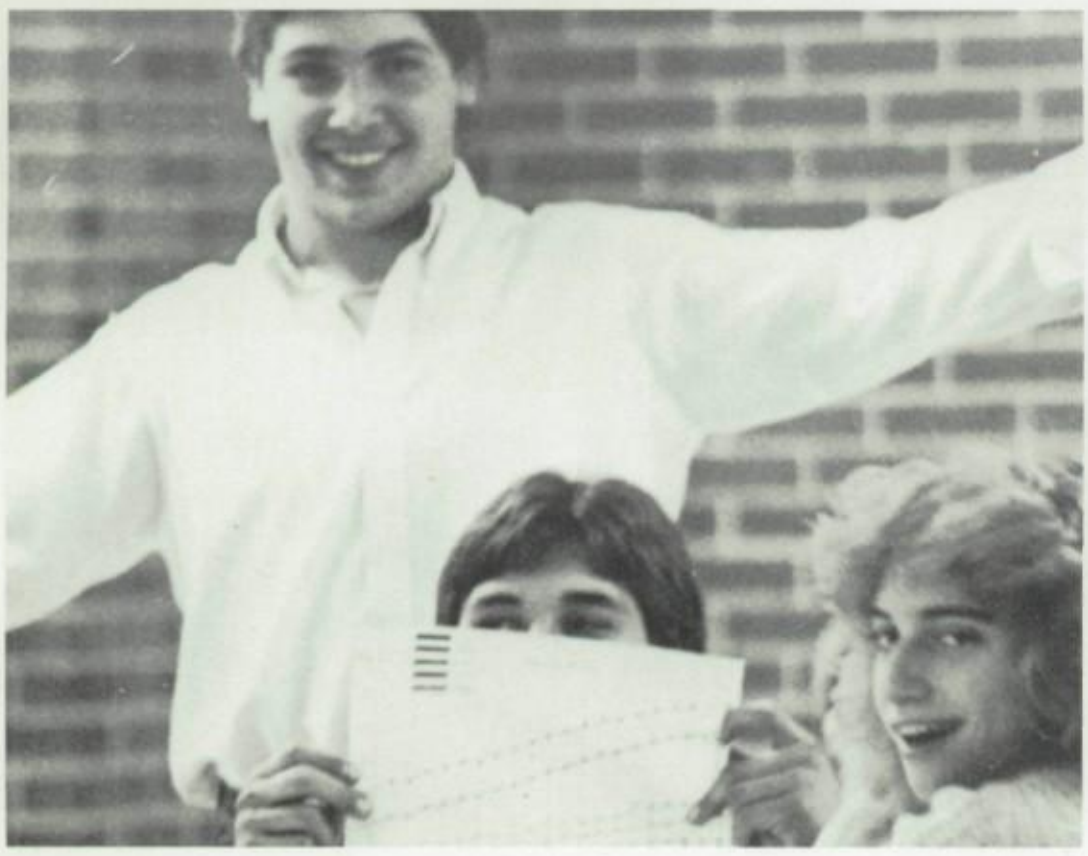
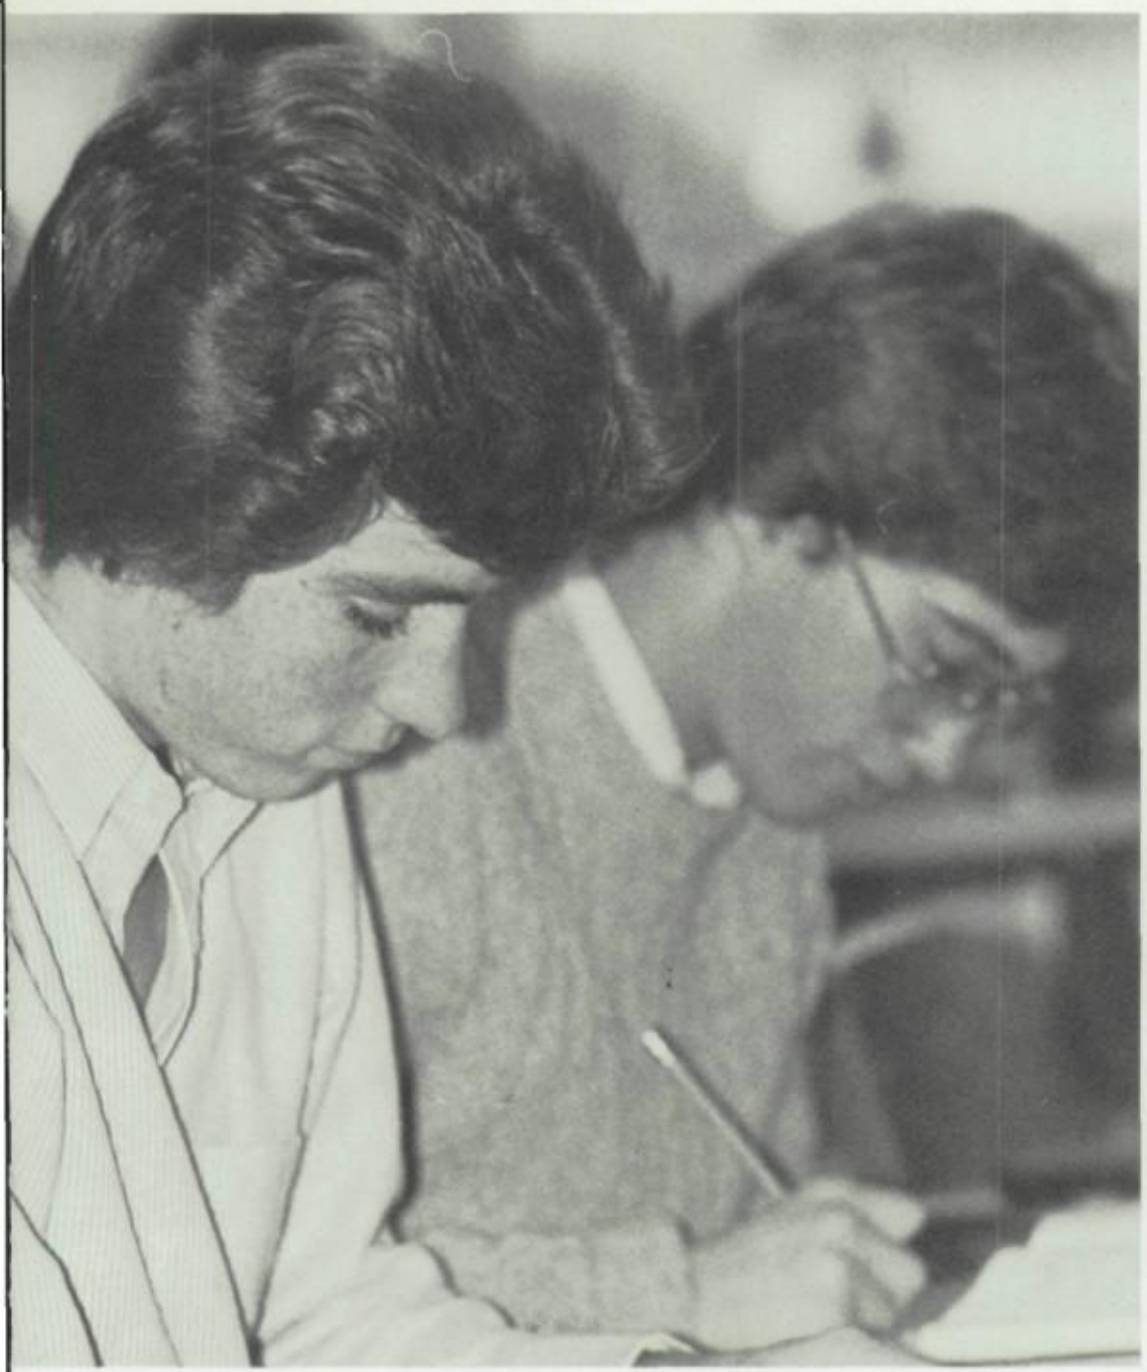
We figured we had it made. We'd sweated through driver's ed and SAT's and health, and nothing could spoil our year. Not even 470's or swimming class. We felt different this year, and you could always spot a senior by the "different" things we did, like finally winning a float competition our senior year and being the largest graduating class of Red Lion. But despite all our Tom Foolery, we gave some serious thought to our futures. Some of us knew what we wanted to do with our lives; some of us thought we knew. The rest hoped for some sort of divine inspiration . . . maybe a booming voice that would come to us one night and say, "Be a lumberjack." Unfortunately, that didn't happen to many of us.





"It's in my locker. Do you want me to get it?" How many times have we heard or said that as we tried to explain away our little oversights? We never called them excuses, but when we skipped gym because of a hangnail or didn't swim because "I forgot my contact case" or when "Rover ate my term paper," what else were they? Absences were convenient when we forgot the big test and just couldn't get the notes. And anybody not in class was always on a field trip. Even when we were stuck alone, unprepared and quivering, we were still confident. After all, who's going to doubt, "My dog ate my little brother . . . who ate it."

Who's going to write the sequel to the Class of '84? The years will tick by after we've all gone our separate ways, and before we know it, the invitations will be in the mail for our class reunion. Will we recognize each other? Will our athletes be out of shape or will we be watching them on TV every Saturday afternoon? How many Einsteins and John Waynes will there be among us? And maybe that person who always sat in the corner and never said anything, or the one who always made us laugh . . . maybe someone who was beside us every day will do something to make the history books. And then the rest of us will say, "Hey, I knew that guy!"



Well, mom, I made it! Twelve years of catching the bus and packing lunches and doing homework are over. So are the two-hour telephone calls at 11:00, the daily showers (maybe dad will finally have some hot water), and the calls to dinner that couldn't overpower KIX. No more empty gas tanks when you're late to work and no more hours spent in the bathroom before a Friday night date or waiting up for me after midnight. We flew Aunt Eloise in from Idaho to see me graduate, and now I have my whole future ahead of me. Thanks, mom and dad for everything.

In memory of: Julie Ann Darr

Born — June 26, 1966

Died — September 23, 1981

No man is an island, entire of itself, every man is a piece of the continent, a part of the main, if a clod be washed away by the sea, Europe is the less, . . . Any man's death diminishes me, because I am involved in mankind, and therefore never send to know for whom the bell tolls; it tolls for thee.

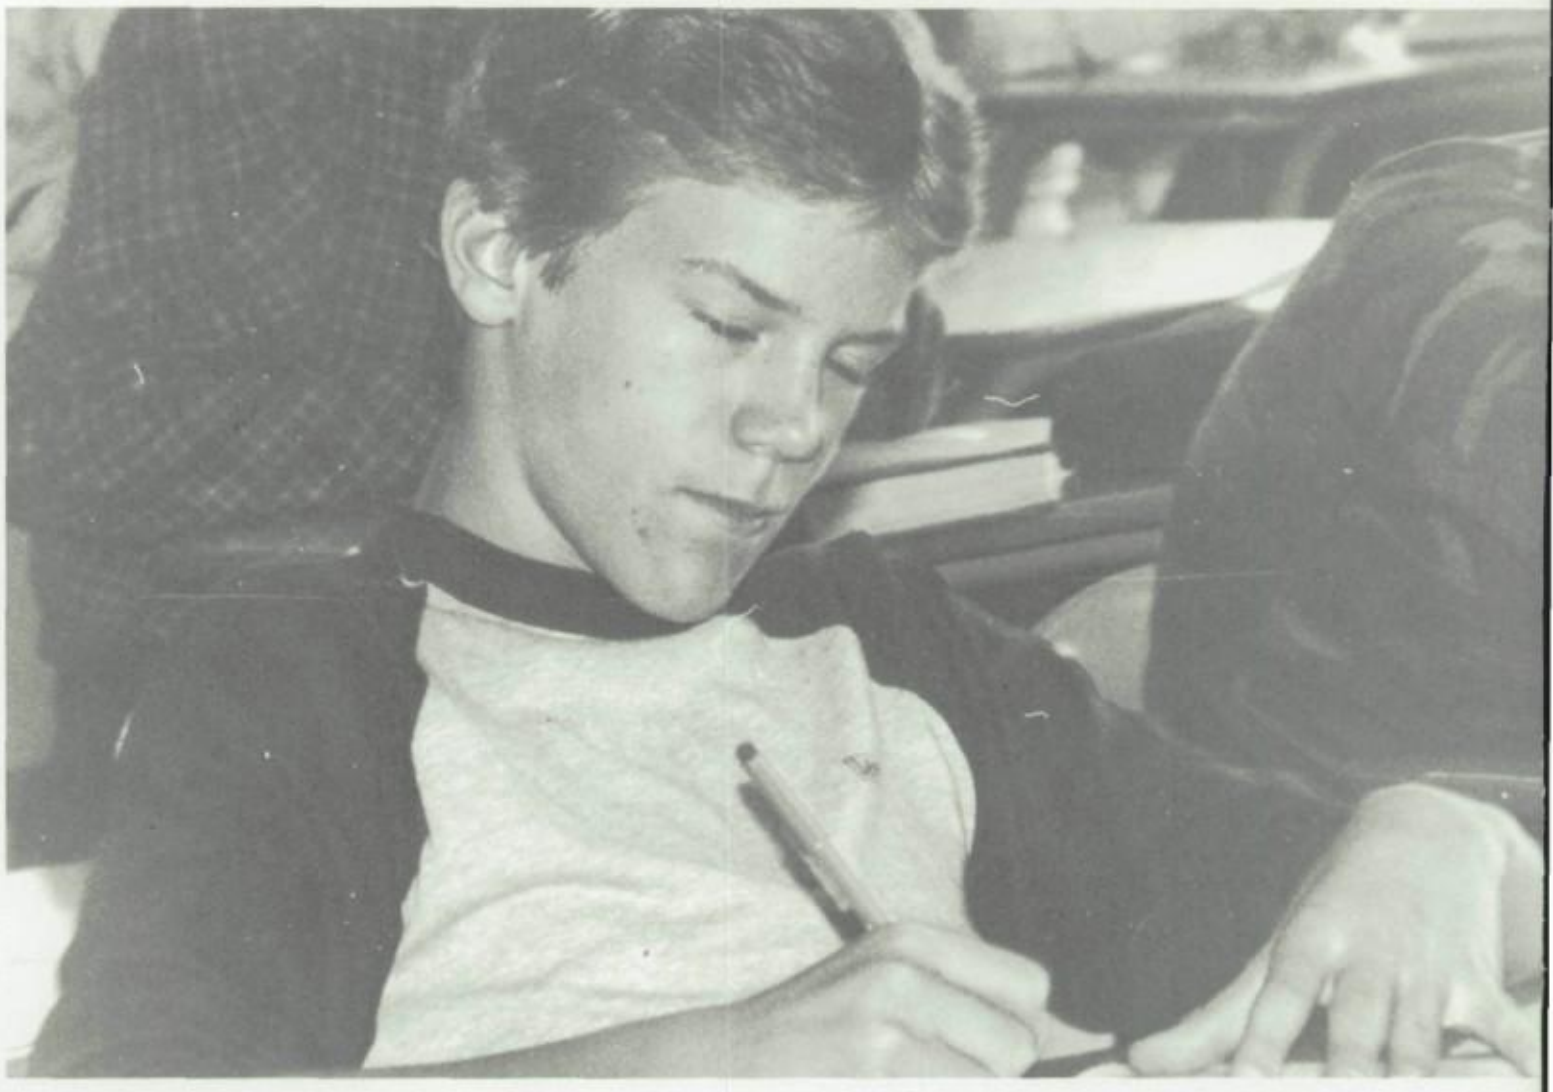
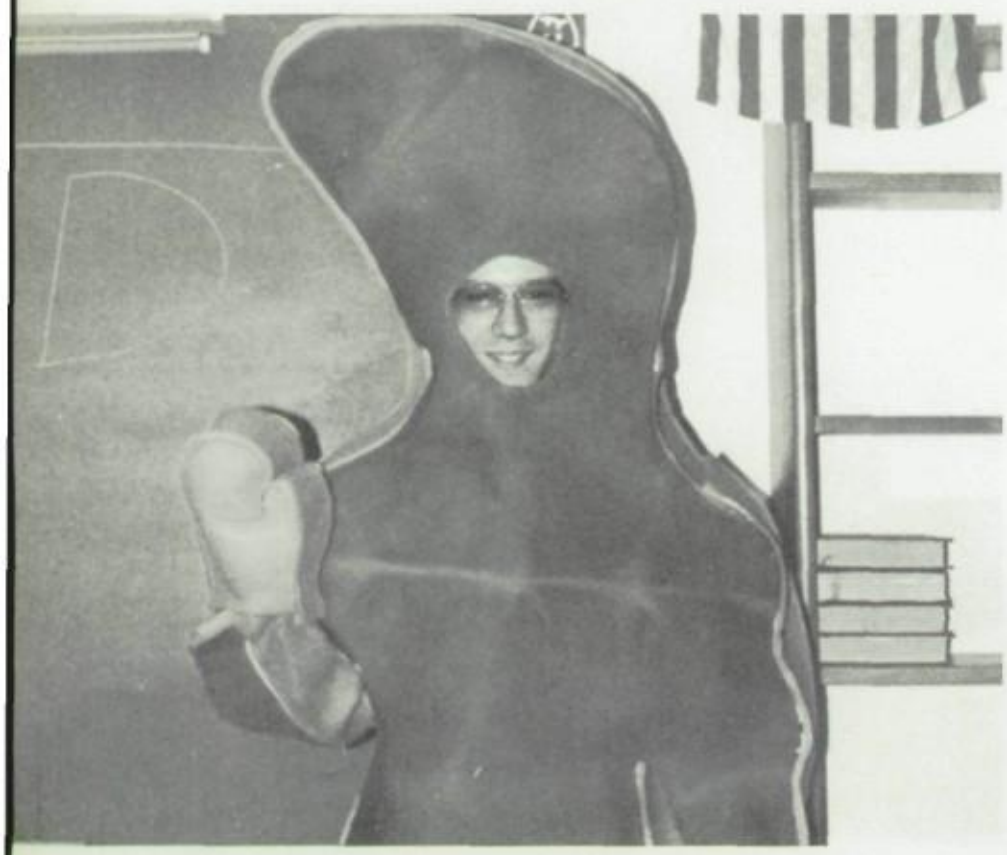
CANDID — Lab work takes a lot of brains.

Uxorious, emetric, desultory, pristine. We couldn't escape their ineluctable advance! In the name of becoming a pundit, we were given drills to augment our exiguous vocabularies. We were *importuned*, *cajoled*, coerced and otherwise harangued into a tenuous grip on them in English Grammar and Composition. For some of us they were ubiquitous, for the vagaries of the computer fortuitously ensconced us in both courses.

What caused this anathema (miserable sickness, in case you're wondering)? The Shostack Vocabulary Workshop!





I have seen the sea when it is stormy and wild; when it is quiet and serene; when it is dark and moody. And in all its *moods*, I see *myself*.

"What's this got to do with anything?" and "What possible usefulness can this have?" were our two favorite questions in classroom combat with frustrated teachers.

Who cares what the stopping distance of a moped traveling 56 mph on astroturf in a snowstorm is? And we'll probably never have to spell Mao Tse Tung again in our lives!

As far as we were concerned, our participles could dangle — we even liked them that way! And no one, we argued, was ever going to walk up to us on the street and demand the quadratic formula!

If our telephone should some day ring, and a voice on the other end should say, "For $500,000, what's the electron dot formula for H_2SO_4?" We all know what to do. Hang up quick. And then cry a lot.

You never conquer a mountain. You stand on the summit a few moments; then the wind blows your footprints away.

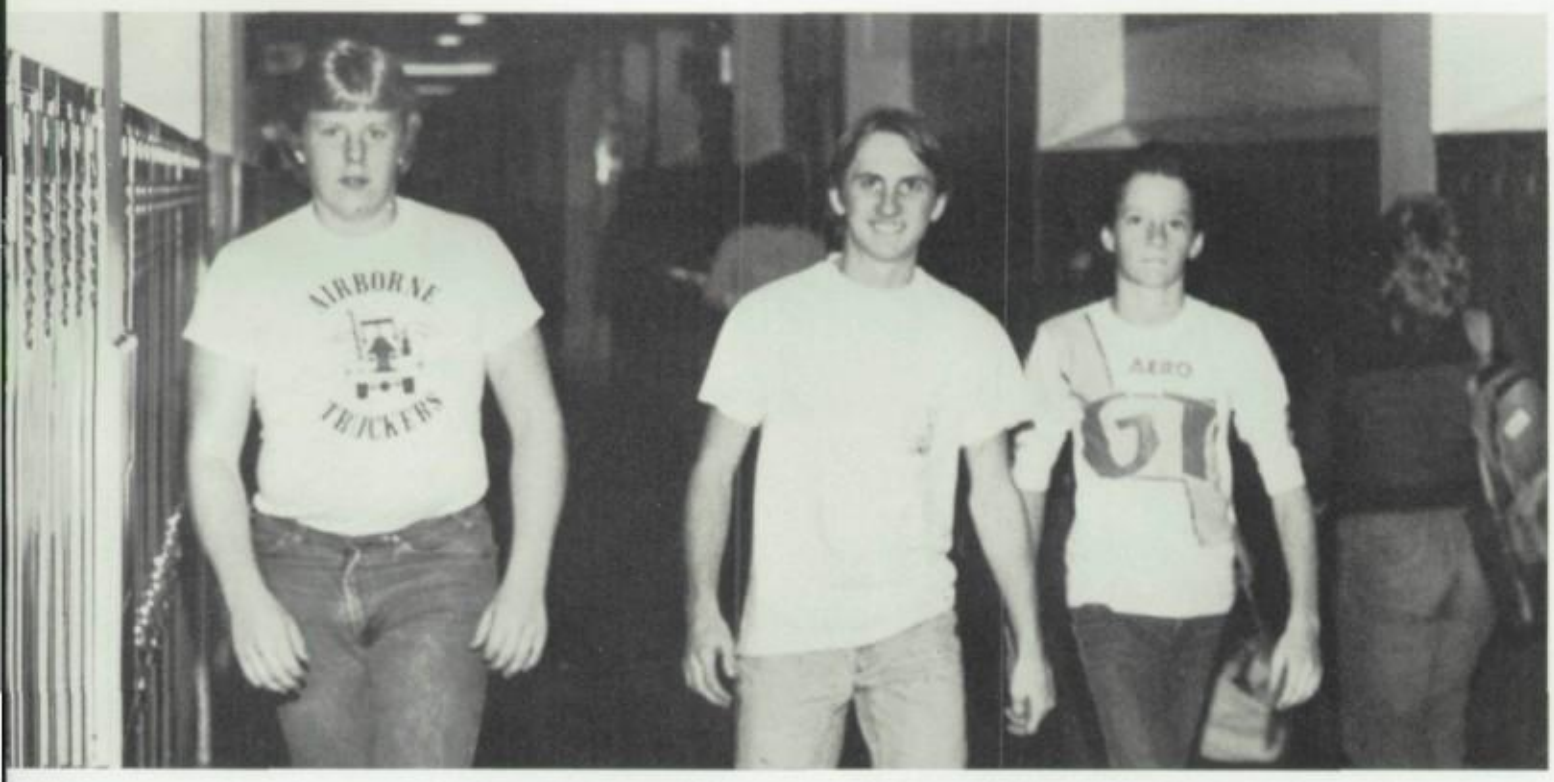
PEPSI-COLA



Dear Diary,

I knew I shouldn't have gotten up this morning when I woke up in the bathtub. In spite of that, the day went great . . . until lunch.

From then until the dirty deed was done, there remains only sketchy details of my embarrassment. Slapping the mayonnaise on the pizza . . . missing it . . . the mayo spreading itself over my right arm and down my leg . . . and coming to rest on my sneaker.

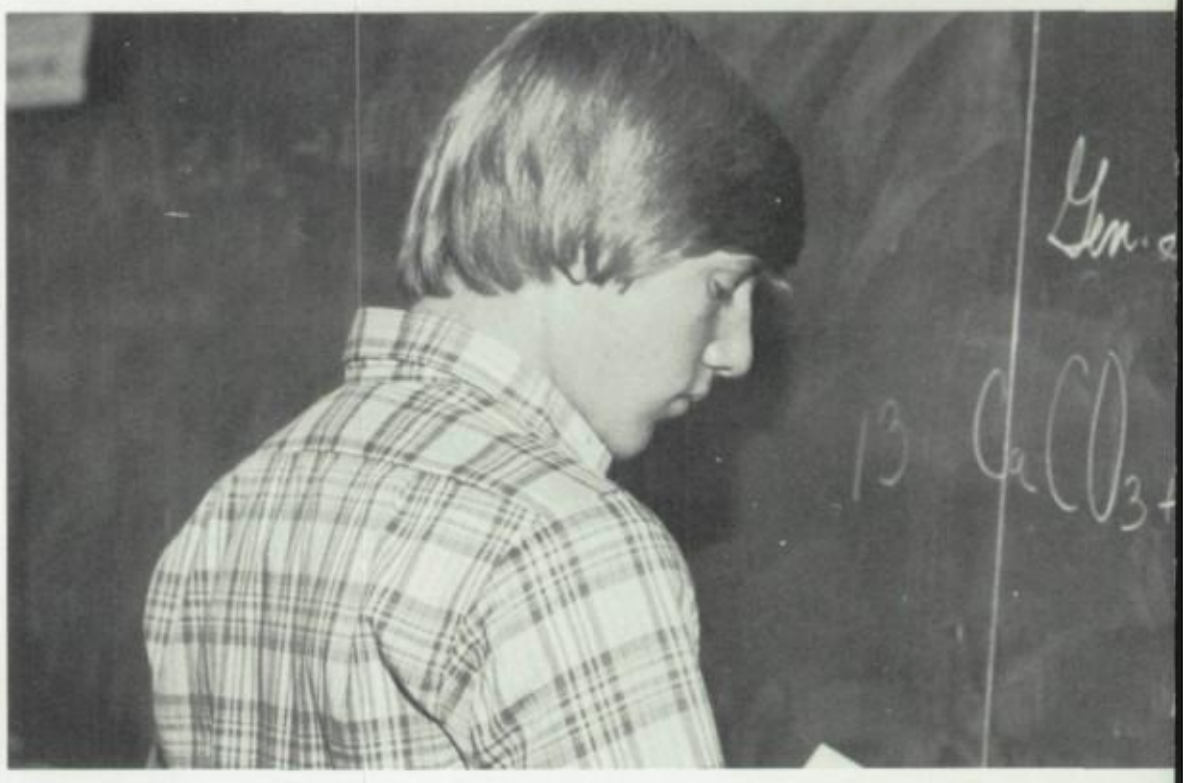
I still remember taking that first step. If only I'd have seen the mayo fly off my sneaker and onto the floor in front of me. Then I wouldn't have stepped on it . . . I wouldn't have had that floating feeling as I tumbled to the floor in a heap of pizza-coated flesh.

It was terrible. The entire cafeteria went silent, deadly silent . . . until it erupted into the worst teasing I have ever heard! "Bumbling Freshman" was their battle cry as they heaped their abuse on my sagging shoulders.

It was one of those moments that if you could die you would live happily ever after!

Success and Failure: We think of them as opposites, but they're really not. They're companions — the hero and the sidekick.

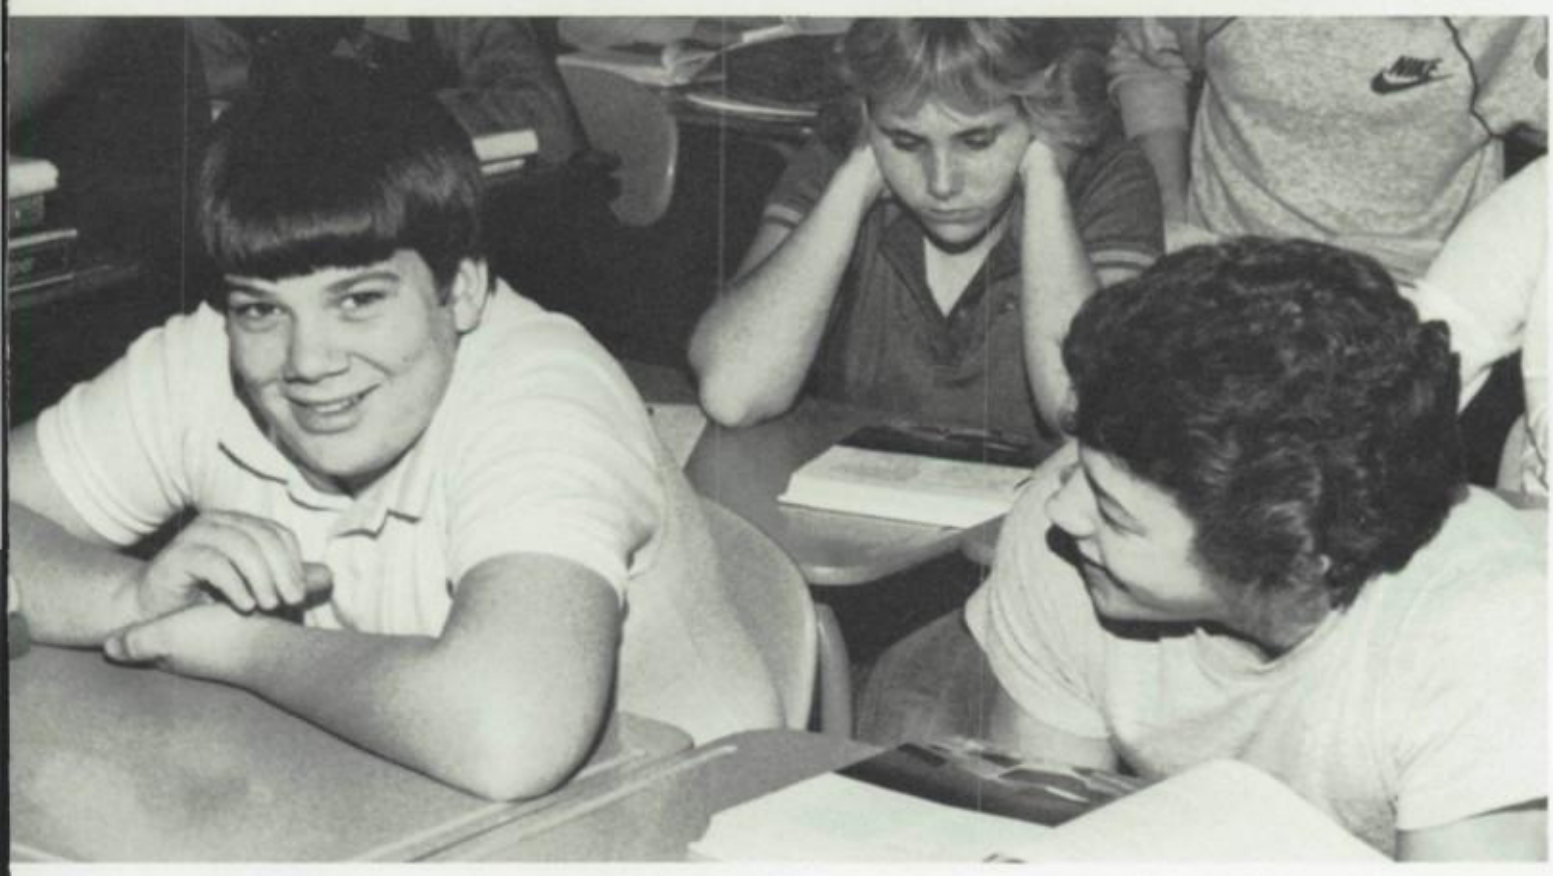
School wasn't just a place where we went to class and soaked up facts like a dry sponge. It was also a place where we met our friends. With them, we were not only part of a group but an individual as well. If we went for the "preppy" look, we decked out in duck shoes, alligator sweaters, docksiders, khaki pants and monogrammed shirts. The "informal" look meant jeans, sneakers, a concert tee-shirt, and a bandana. Also "in" were vans, video games, unicorns, and weekends at the shore! In five years, these things might all be passe but in 1984 they were part of our lives.



Life isn't one straight line. Most of us have to be transplanted, like a tree, before we blossom.

There were dozens of things that we learned in high school that we'll really use in the future. We learned how to cook; how to silk-screen, how to sew, how to type, how to fix a car, and much more.

The fact that we burned the eggs, spilled the paint on our shirts, and sewed a sleeve to a pair of pants didn't stop us for a second, for each mistake inched us closer to our goal — vocational competence.



Adventure is where you find it, and you can find it anywhere . . .

Dunn,
to summer work
& really nice that
I met Jack also upon
Chem class. Good luck
in all your future attempts
when after this
summer ends.
more smiles

Lisa ☺

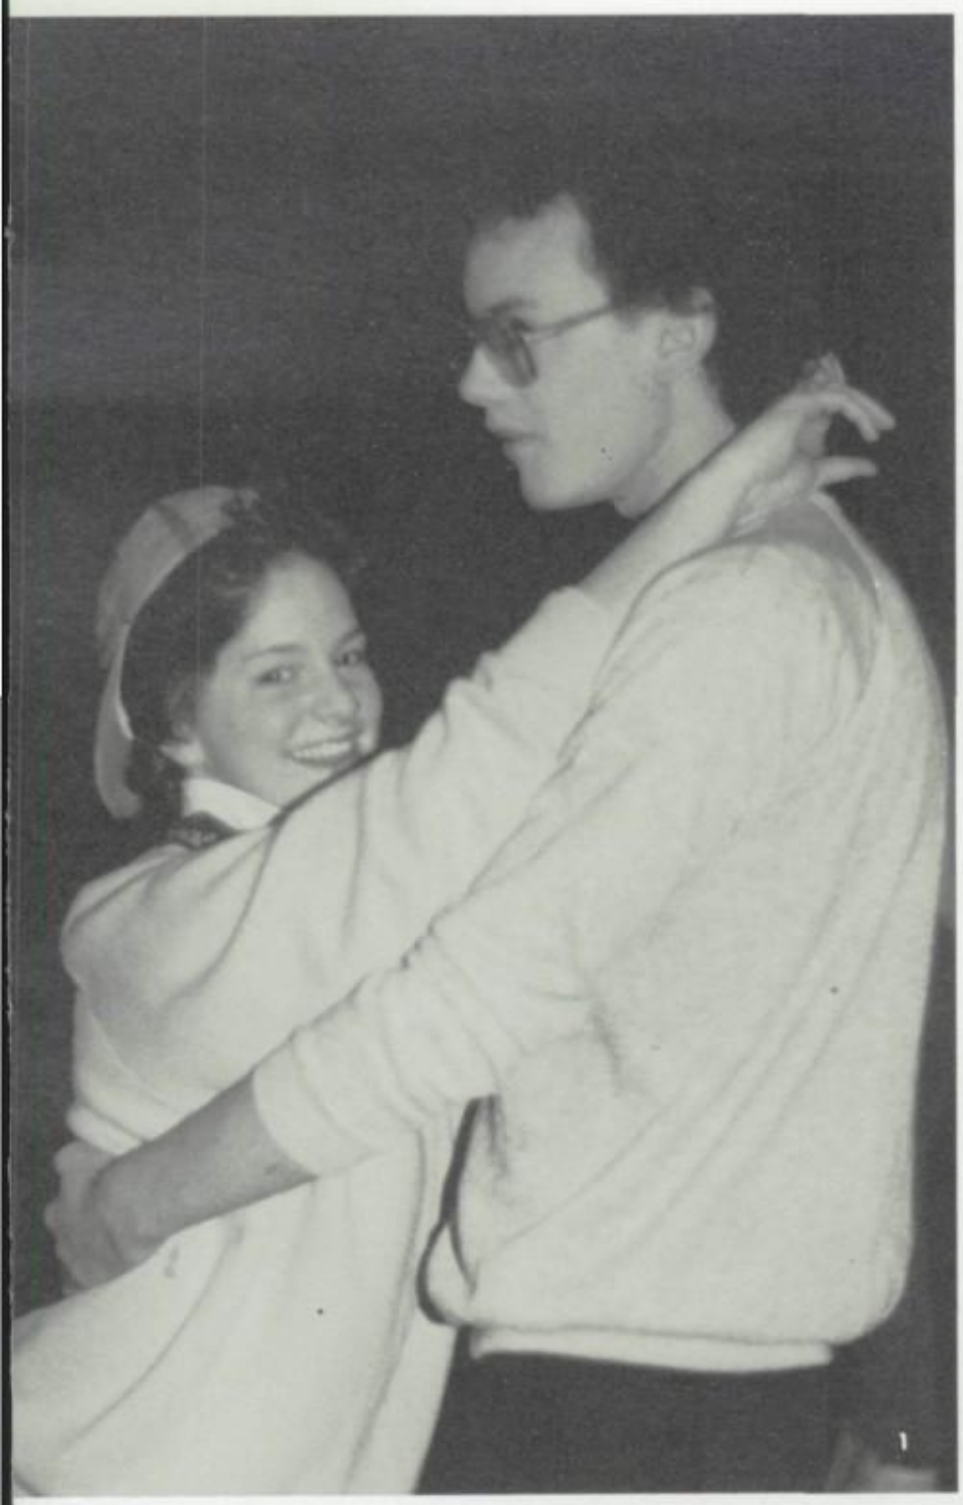
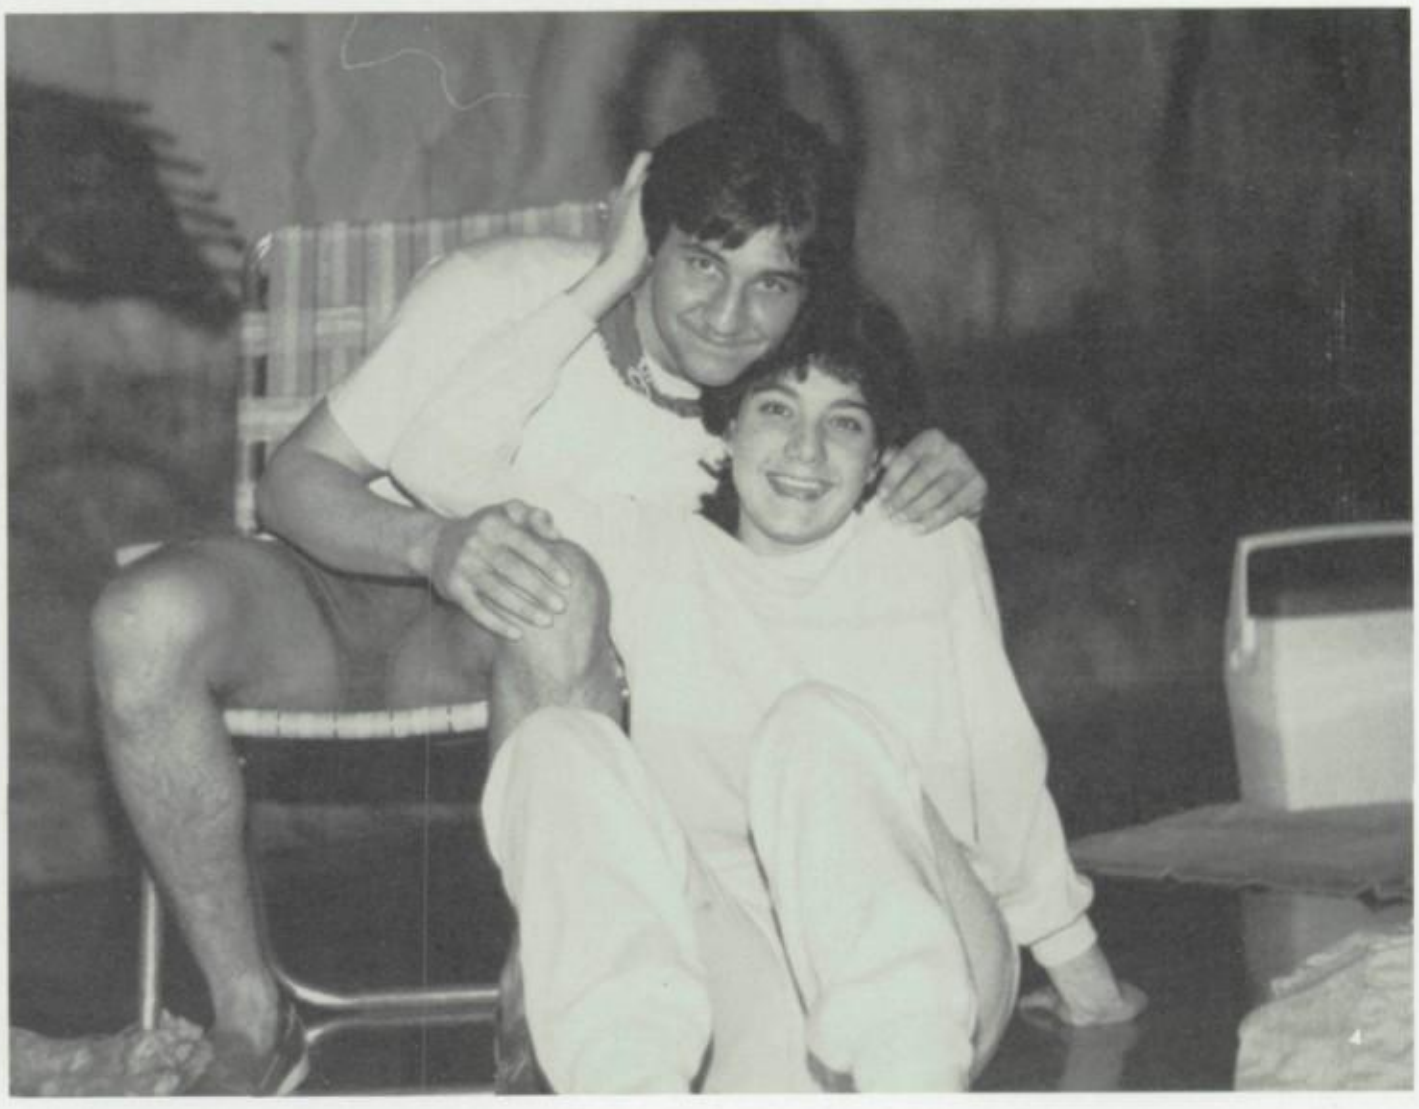
AGE BEFORE BEAUTY?

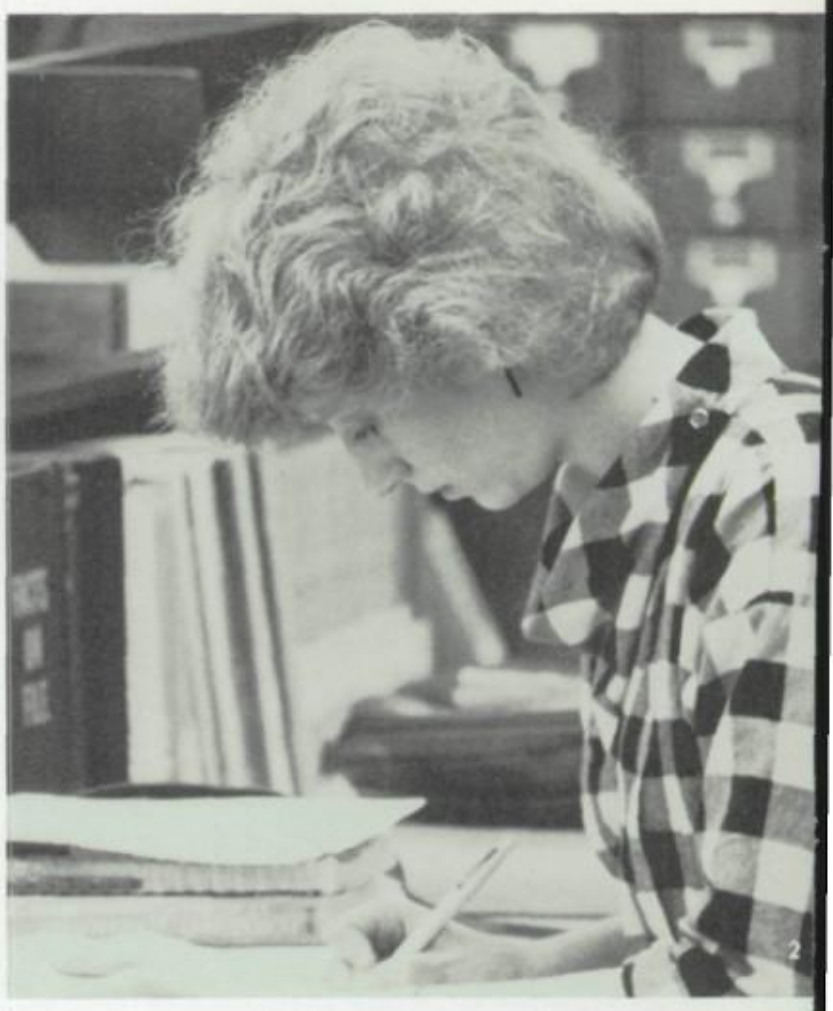
BEACH PARTY

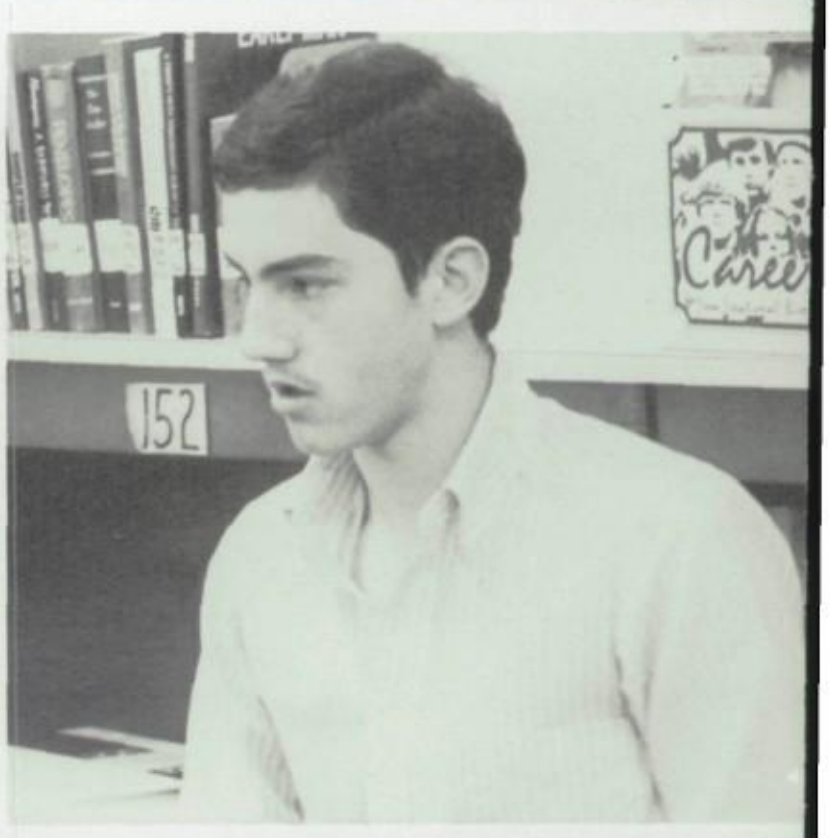


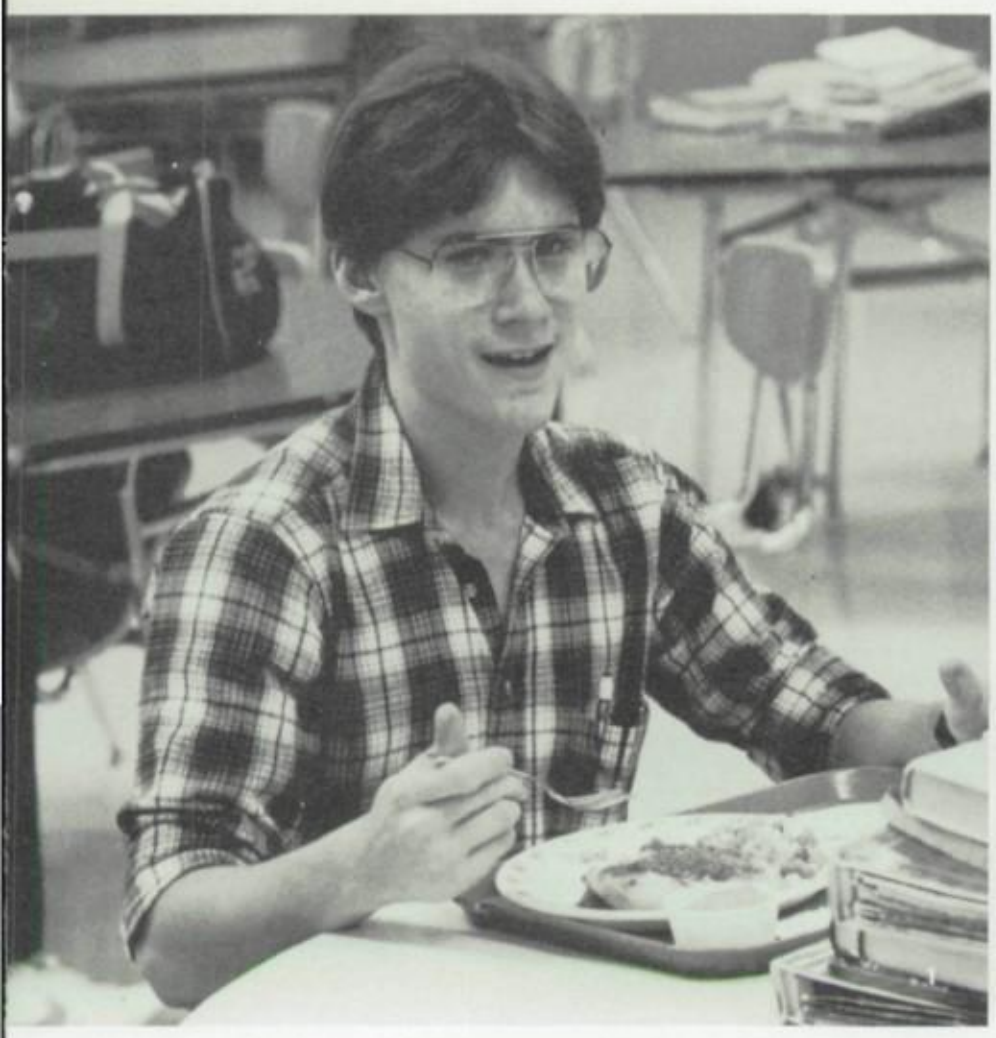


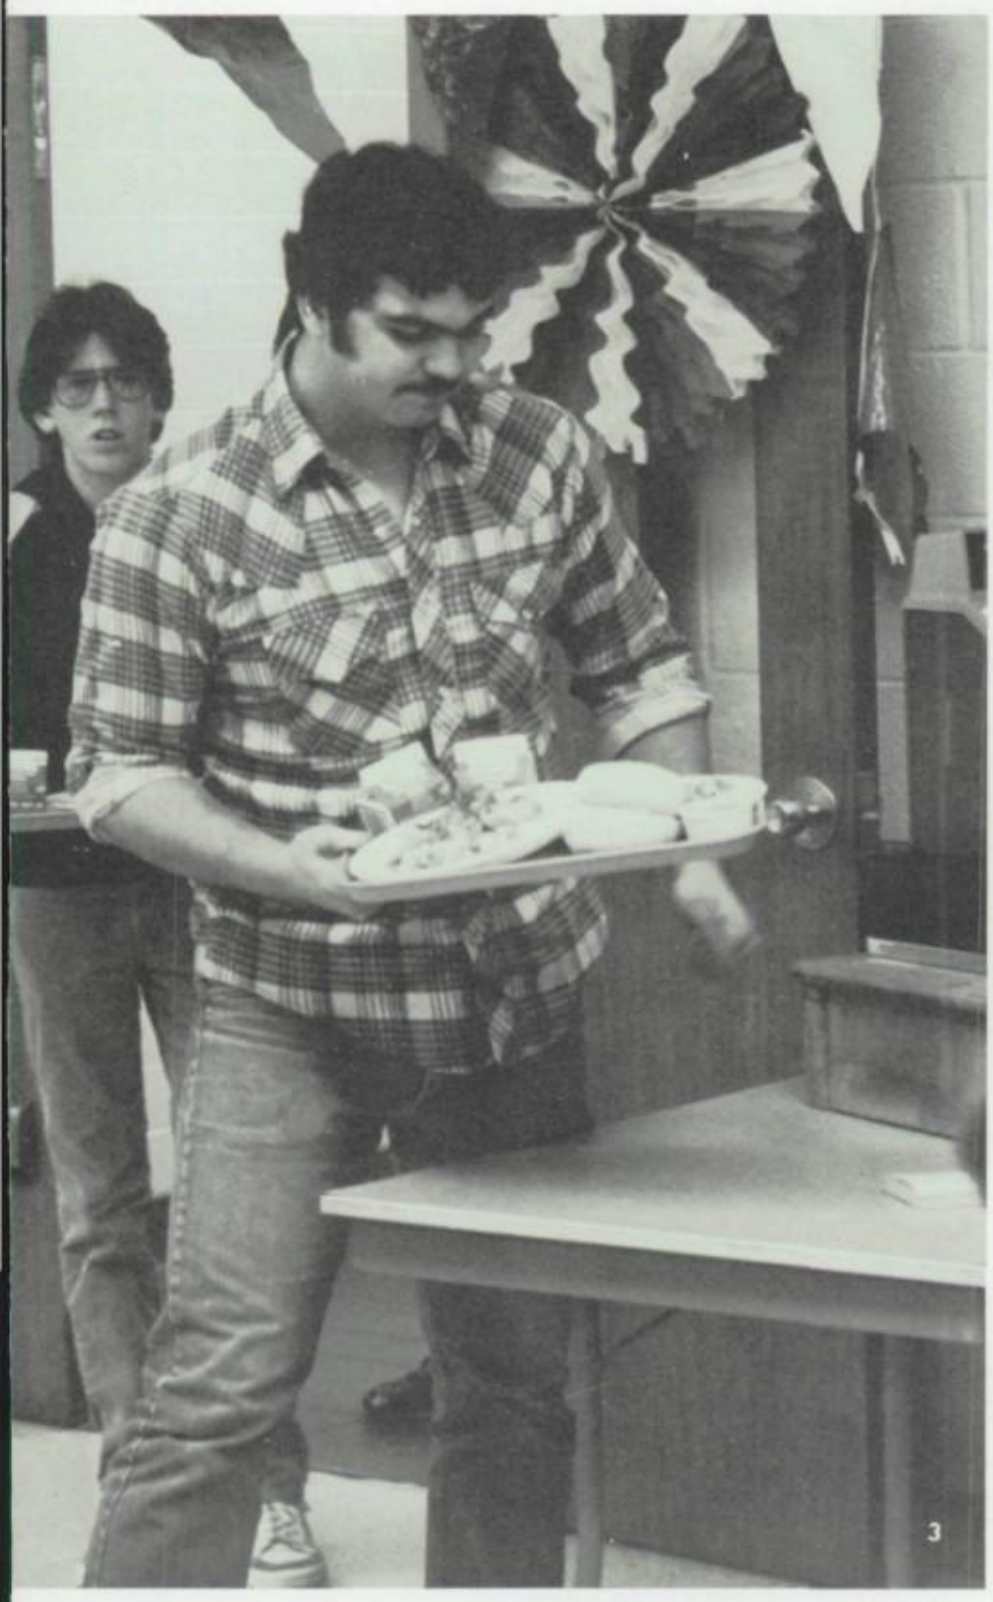
As the weathermen announced that the cold temperature was breaking records and that it was 0 degrees, we threw caution to the wind. We dug out our sunglasses, shorts, and suntan lotion and organized a beach party dance. With umbrellas, blankets, towels, and chairs set up in the gym, we began to feel the warmth of summer. Didn't someone once say "temperature is a state of mind?"

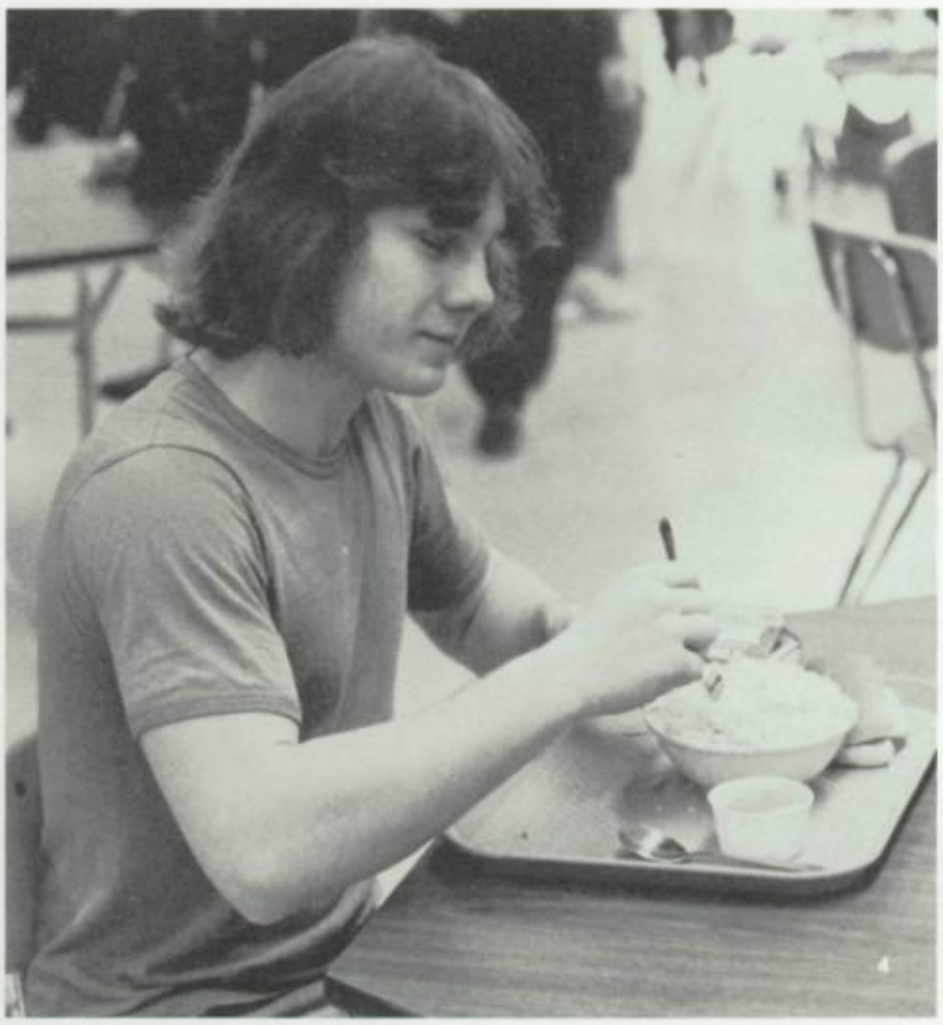
Whether we were learning how to say, "The red donkey went to Bermuda on his birthday" in Spanish, how to punch an inventory into an Apple II computer, or how to interpret the moral implications of genetic manipulation, we were beaming with wisdom and knowledge. There was a course for every taste, from child-rearing to cooking to furniture refinishing, and while it seemed useless at times to learn about rhombuses and iambic pentameter, there was a method to our madness. We actually ended up learning something!











Even though it seemed like it, we weren't hard at work the entire seven hours we were in school. The little time we had to relax, we spent lounging about and talking in the halls, on the bench, in the cafeteria, in the lobby, in the commons and in the bathrooms. We got crazy, got weird and got rowdy. And even though we all didn't get straight A's, we at least learned how to talk to each other. Maybe that was just as important.

Typing class is also an experience unto itself. It's all conditioning . . . hear the bell, return the carriage, hear bell, return carriage, bell, return, ding, slap, ding, slap, crash! What the . . . Typing teachers are also a very special breed — they think the alphabet starts with Q and goes W-E-R-T, and there's always a quick brown fox jumping over someone's lazy dog!

As parents squirmed in their seats to get the Polaroid clear for that most important shot of Junior stumbling down the aisle in cap, gown and sweat socks, we seniors realized our high school days were all but over.

Looking around at the 340+ seniors sitting around us, we finally understood that 12 years were ending at last, and we wondered if we'd feel different tomorrow morning.

We sat waiting for our names to be called, and finally we walked to the front of the room and shook hands and accepted the piece of paper which would fill the frame waiting for it back home.

And while the Class of '85 rejoiced at being seniors at last, we wondered what we had become.

Dear

To a real sweet guy that I met in eighth grade . . . well, we made it!!! Remember all the "fun" times in physics class! You've got a super personality — so don't ever change! I'll always remember you for a long time. Be good (ha, ha) and keep in touch. Love ya!!! . . .

Having suffered three straight exhibition losses, our Lions battled back to win four straight YCIAA Division I contests. This brought an undefeated Red Lion team against an undefeated Spring Grove in a battle for first place. Suffering a 20-6 defeat, the Lions could be proud of their effort in the game. Our season ended with disappointing losses to Reading and Dallastown. Appreciation should be given to the senior team members on their courage displayed throughout the season. With the return of many underclassmen, we look ahead to the future for Red Lion Football to be back on top again.
